Computation of Final Evaluated Score using Technical Score and Financial Score

Technical Score of the Bidder (TSB) is the score awarded to the bidder by the Technical Evaluation Committee of the University as per the Technical Evaluation Table.

Financial Score of the Bidder (FSB) is obtained using the price of the concerned bidder and that of the lowest bidder (without taxes). This is computed by the evaluation committee as per the following formula:

$$\text{FSB} = (\text{Bid amount of the lowest bidder} / \text{Bid amount of the concerned bidder}) \times 100$$

The Final Evaluated Score (FES) of the bidder is based on both the technical evaluation score and financial bid score. The technical evaluation gets 70% weightage and financial bid gets 30% weightage in the final score. IGDTUW will evaluate and compare the bids that have been determined to be substantially responsive using the following formula:

$$\text{FES} = [0.70 \times \text{TSB} + 0.30 \times \text{FSB}]$$

Where FES: Final Evaluated Score; TSB: Technical Score of the Bidder; FSB: Financial Score of the concerned Bidder

Final Comparison of Bids and Award of Contract

The Final Evaluation will be performed assuming that the contract will be awarded to the bidder whose Final Evaluated Score (FES) stands highest. In case of a tie on FES, bidder of higher Technical Score will be eligible for the award of contract.
